MO | LOST CIVILISATION

Feb 7th - 21st

If our civilisation could only be represented by the material objects we leave behind, what would future archaeologists glean from the welter of technological artefacts they would excavate? In Lost Civilisation artist MO's playful collages explore our obsession with technology, proposing our machines and devices as new objects of worship in an increasingly secularised world.

MO (Imogen Van Sebille) is a visual artist who works in the medium of collage.

MO has exhibited in a number of solo and group shows in Melbourne and London. Her practice has proved very versatile in a range of applications from one-off works on paper to limited edition clothing, shop windows and installations.

GALLERY

All artworks featured have been lovingly custom framed by Fitzroy Frame Makers

Frame is crafted from Tasmanian Oak and perfectly colour matched to the background colour in a unique two tone frame with full bleed effect.
