Artist Statement:

'My immediate surroundings, the local environment and especially parklands and reserves where I walk every day is the inspiration for my work.

I am fascinated by the ever-changing light and mood of these familiar landscapes that differ each day. I depict my personal experience and memories of these scenes, often working intuitively as each work evolves.'

Melbourne born artist Robyn Rayner completed a Bachelor of Fine Art, (Honours) In 1998 at Monash University. She is an artist who is deeply attuned to her surroundings and often depicts small moments of everyday life in her work while evoking a sense of place. She currently lives in Geelong near Eastern Park, a 185 acre site where she walks her dogs everyday observing and distilling images which are predominantly etchings and drypoints. Her work is in many private and corporate collections.
