Artist Statement:

'I am fortunate that I thrive on solitude, peace and silence. My studio is my quiet place where I get lost in my art work. My abstract landscapes are inspired by locations that I have visited and moments in time I have experienced. The sunrises and weather that I closely observe from level 5, Epworth Geelong during regular stays for pain management are a constant source of inspiration as is the surrounding landscape of the Grampians region where I live. Art lets me enter an inner world that's beyond words, this is my sanctuary.

My art has often been a response to world and local events. In the summer of 2020, I produced a body of work expressing the devastating impact of the massive bushfires burning out of control in Australia. The theme of bushfires continues to weave itself into some of my new work and now includes floods and the extreme weather events that continue to be part of our lives.

My monoprints and monotypes are usually multi-plate prints and often have up to 5 runs through the press to build up rich overlays of colour. My processes involve a degree of risk taking and it is this sense of experimentation that keeps the work alive and the process exciting for me. I use Charbonnel Aqua Wash oil-based etching inks and the juxtaposition of colours is a constant fascination.'
